

ECOWOOD

HABITAT

PROJECT BY

The Legacy

Ardini Projects, a distinguished initiative under the umbrella of Greenpure Aquafresh Private Limited, was founded in 2001. Renowned for its excellence, the company has established itself as a prominent exporter and retailer, offering an extensive array of agricultural products such as vegetables, fruits, spices, as well as fresh and dried herbs.

Where Tranquility Meets Growth

About Ecowoods

Welcome to Ecowood Habitat, your idyllic weekend retreat just 70 minutes away from Bangalore International Airport. This urban farming paradise offers a rejuvenating oasis amid the bustling city life. More than just a retreat, it's a thriving investment opportunity situated strategically near the burgeoning National Highway 544E and upcoming Tekulodu Corporate Zone.

A landscape photograph at sunset. In the background, several wind turbines are silhouetted against a bright, orange and yellow sky. The middle ground shows rolling hills and a dirt road that runs through a field of young, planted trees. The foreground is dominated by the dirt road and the rows of small green saplings. The overall scene conveys a sense of sustainable development and environmental stewardship.

- Custard apple
- Avacado
- Black jamun
- Laxman fruit
- Rama fruit
- Amla
- Lemon
- Orange
- Water apple
- Coconut

The Plantations

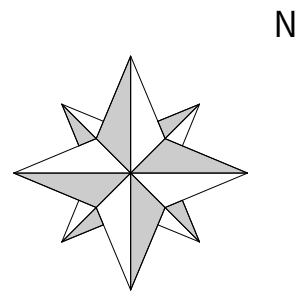

Red Sandalwood's Economic Prospects

80% of the plantations comprise Red Sandalwood, while the remaining 20% are fruit-bearing plants. Clients can anticipate a return on investment (ROI) from Red Sandalwood after an investment period of 12-15 years. After the initial year, the annual maintenance charge will be a nominal Rs. 30,000 for a 10,800 sq. ft area covering plant and amenity maintenance.

An aerial photograph of a rural landscape at sunset. The sky is filled with dramatic, orange and yellow clouds. In the background, a line of wind turbines is silhouetted against the horizon. The foreground shows a mix of green fields and brown, tilled soil. A prominent white dashed line outlines a large, irregularly shaped parcel of land. Within this parcel, there is a small white building with a red roof and a rectangular pond. The overall scene conveys a sense of agricultural and renewable energy coexistence.
